**Рабочее резюме**

Генеральная Ассамблея Организации Объединенных Наций в своей резолюции 78/260 провозгласила 2027 год Международным годом устойчивого и жизнестойкого туризма, признав тем самым потенциал туризма в содействии созданию экономических возможностей, социальной интеграции, взаимопониманию между культурами и охране окружающей среды. Это обусловлено тем, что влияние туризма выходит далеко за рамки собственно туристического сектора.

Он создает рабочие места, поддерживает общины, способствует сохранению культурного и природного наследия, а также укрепляет устойчивость и расширяет экономические возможности. Однако этот вклад зачастую рассматривается изолированно либо недостаточно полно отражается в более широких дискуссиях по вопросам политики и развития. Международный год предоставляет возможность усилить признание вклада туризма и одновременно мобилизовать усилия по повышению устойчивости и жизнестойкости сектора.

Международный год призван служить глобальной платформой для правительств, деловых кругов, общин, системы Организации Объединенных Наций, международных организаций и других заинтересованных сторон для обмена опытом, укрепления партнерских отношений и содействия практическим действиям. Хотя повышение осведомленности остается важной задачей, Международный год в равной степени ориентирован на практическое осуществление мероприятий, обмен знаниями и развитие сотрудничества, которые могут обеспечить долгосрочное воздействие, сохраняющееся после 2027 года.

Предлагаемая рамочная основа проведения руководствуется четким видением: продемонстрировать, каким образом туризм создает возможности, укрепляет общины и способствует повышению устойчивости туристских направлений. Ее цель состоит в том, чтобы признание было воплощено в конкретные действия путем поощрения практических инициатив, развития сотрудничества и укрепления доказательной базы, подтверждающей вклад туризма в достижение более широких экономических, социальных и экологических целей.

Рамочная основа построена на поэтапном подходе, охватывающем подготовительный этап в 2026 году, этап проведения в течение 2027 года и этап закрепления долгосрочных результатов после завершения Международного года. Она опирается на гибкую систему осуществления мероприятий, тематические области, посвященные устойчивому и жизнестойкому туризму, механизмы управления под руководством государств-членов и механизм финансирования, основанный на добровольных взносах в соответствии с резолюцией 78/260 Генеральной Ассамблеи.

Международный год призван не только усилить признание вклада туризма, но и оставить после себя более прочную доказательную базу, более прочные партнерства и более широкие возможности для включения вопросов туризма в более широкие дискуссии по вопросам политики и развития. Его успех в итоге будет определяться тем, способствует ли он более широкому признанию роли туризма и более активным практическим действиям в интересах людей, общин и туристических направлений еще долгое время после окончания 2027 года.

Исполнительному совету предлагается предоставить руководящие указания и одобрить предлагаемую стратегическую рамочную основу, механизмы управления и подход к финансированию Международного года.

Секретариат начал поэтапный и основанный на консультациях процесс подготовки к Международному году устойчивого и жизнестойкого туризма (2027 год), который предусматривает ведущую роль государств-членов и ориентирован на практическое осуществление мероприятий. Он сочетает в себе устоявшиеся подходы Организации Объединенных Наций, такие как повышение осведомленности, информационно-разъяснительную деятельность и мобилизация заинтересованных сторон, с элементами, в большей степени ориентированными на достижение конкретных результатов, призванными повысить эффективность осуществления на национальном и местном уровнях и поддержать структурированные консультации по вопросу о месте туризма в формирующейся повестке дня в области развития на период после 2030 года. К таким элементам относятся предполагаемая роль национальных комитетов, укрепление направления деятельности по развитию потенциала, расширение базы знаний, проведение флагманских мероприятий и структурированный процесс консультаций, выходящий за рамки самого Международного года.

Подготовительный процесс координирует Комитет по вопросам туризма и устойчивости (КТУ), который на своей 22-й сессии согласился выступить ядром Руководящего комитета Международного года, в состав которого также войдут председатели региональных комиссий и отдельные партнеры.

Консультации с государствами-членами на региональном уровне также проводились через региональные комиссии.

Исполнительному совету предлагается принять к сведению достигнутый прогресс, одобрить предлагаемую рамочную основу проведения Международного года, включая механизмы управления, тематические направления, роль национальных комитетов, основные мероприятия, базу знаний, мероприятия по развитию потенциала, коммуникацию и информационно-просветительскую работу, а также предлагаемое создание счета для проектов в рамках Международного года. Ему предлагается далее утвердить создание Руководящего комитета и его круг ведения, принять к сведению Руководящие принципы в отношении партнерских связей и поддержки, а также утвердить логотип, разработанный для Международного года, и поручить Секретариату подготовить соответствующие условия его использования.

¹ Это проект решения. Для ознакомления с окончательным решением, принятым Исполнительным советом, см. документ «Решения», который будет опубликован в конце сессии.

I. Почему Международный год имеет значение

1. Туризм является одним из крупнейших секторов мировой экономики и вносит значительный вклад в создание рабочих мест, приток инвестиций, экспорт и местное развитие. Он обеспечивает средства к существованию, поддерживает общины, способствует культурному обмену и содействует охране природного и культурного наследия. Во многих туристических направлениях туризм также играет важную роль в укреплении устойчивости и создании возможностей для инклюзивного роста. Это обусловлено тем, что влияние туризма выходит далеко за рамки собственно туристического сектора.
2. Тем не менее, туризм часто рассматривается через призму туристских потоков и поездок. Его более широкий вклад в создание возможностей, развитие общин, укрепление устойчивости и прогресс часто упускается из виду или рассматривается в отрыве от более общих экономических, социальных и экологических приоритетов. В результате потенциал туризма в плане содействия достижению национальных целей в области развития не всегда в полной мере признается или находит должное отражение в процессах разработки политики и принятия решений.
3. В условиях, когда страны все больше ориентируются на решения, обеспечивающие экономические возможности, укрепляющие общины и повышающие устойчивость, Международный год предоставляет своевременную возможность продемонстрировать, каким образом туризм может способствовать решению этих приоритетных задач. Он предлагает платформу для демонстрации практических подходов, освещения успешного опыта и углубления понимания роли туризма в преодолении современных вызовов.
4. Проведение Международного года также отражает понимание того, что устойчивый и жизнестойкий туризм более не является узкоспециализированной темой, а становится все более важным приоритетом для туристических направлений по всему миру. Климатические вызовы, утрата биоразнообразия, уязвимость туристических направлений и экономическая неопределенность меняют условия функционирования туристической отрасли и усиливают необходимость в подходах, способствующих долгосрочной устойчивости и жизнестойкости.
5. Международный год призван объединить эти направления обсуждений в рамках общей глобальной повестки дня. Он предоставляет возможность усилить признание вклада туризма, содействовать сотрудничеству между заинтересованными сторонами и стимулировать практические действия на международном, региональном и национальном уровнях.
6. Международный год призван продемонстрировать, как туризм может приносить пользу не только туристам и предприятиям, но также общинам и местной экономике. Туризм играет важную роль в укреплении культурного взаимопонимания, развитии диалога и сотрудничества между людьми и общинами.
7. Наиболее важным является то, что Международный год не задуман исключительно как информационно-просветительская кампания. Хотя повышение осведомленности остается важной задачей, Международный год в равной степени ориентирован на практическое осуществление мероприятий, обмен знаниями и конкретные действия. Его цель заключается в содействии тому, чтобы более широкое признание вклада туризма воплотилось в реальные результаты, которые позволят укрепить туристические направления, поддержать общины и создать долгосрочную ценность.
8. Проведение Международного года будет опираться на приоритеты, опыт и вклад государств-членов. Благодаря их участию и руководящей роли он предоставляет возможность укрепить международное сотрудничество, обеспечивая при этом развитие устойчивого и жизнестойкого туризма с учетом различных национальных условий и приоритетов в области развития.

II. Концепция и цель

9. Международный год устойчивого и жизнестойкого туризма (2027 год) призван стать общей глобальной платформой, с помощью которой правительства, предприятия, общины, международные организации и другие заинтересованные стороны смогут содействовать развитию устойчивого и жизнестойкого туризма посредством сотрудничества, практических действий и обмена опытом.

Концепция

10. Предлагается следующая концепция Международного года:
- (a) продемонстрировать, каким образом туризм создает возможности, укрепляет общины и способствует повышению устойчивости туристических направлений;
 - (b) эта концепция отражает более широкое понимание туризма как фактора, способствующего не только экономической деятельности, но и социальной интеграции, культурному развитию, рациональному природопользованию и долгосрочной устойчивости. Она исходит из того, что вклад туризма распространяется на множество направлений государственной политики и что его ценность наиболее полно раскрывается через призму тех выгод, которые он приносит людям, общинам и туристическим направлениям;
 - (c) Международный год предоставляет общую платформу, с помощью которой правительства, предприятия, общины и туристические направления могут обмениваться опытом, демонстрировать практические решения и укреплять сотрудничество в области устойчивого и жизнестойкого туризма. Он направлен на углубление понимания более широкого вклада туризма и поощрение подходов, обеспечивающих долгосрочные выгоды на местном, национальном и международном уровнях.

Цель

11. Цель Международного года заключается в следующем:
- (a) воплотить признание в конкретные действия;
 - (b) одного лишь признания недостаточно. Хотя Международный год направлен на углубление понимания вклада туризма, его конечной целью является поощрение практических действий, способствующих развитию устойчивого и жизнестойкого туризма в различных национальных и региональных условиях;
 - (c) это предполагает поддержку практического осуществления мероприятий, содействие обмену знаниями, укрепление партнерских отношений и развитие сотрудничества между заинтересованными сторонами. Это также включает поощрение сбора и использования фактических данных и статистической информации, способствующих демонстрации вклада туризма и служащих основой для разработки политики и принятия решений;
 - (d) Международный год призван служить катализатором практических инициатив, сотрудничества и обмена опытом. Благодаря такому подходу он стремится обеспечить не только более глубокое понимание обеспечиваемых туризмом выгод, но и их укрепление в долгосрочной перспективе.
12. Поэтому Международный год следует рассматривать не как отдельную кампанию или серию мероприятий, а как платформу для мобилизации действий, обмена опытом и содействия практическому осуществлению. Его ценность будет определяться не только уровнем внимания, который он привлечет в течение 2027 года, но и теми практическими результатами и долгосрочным воздействием, которым он будет способствовать.

III. Показатели успеха

13. Успех Международного года следует оценивать не только по количеству проведенных мероприятий или начатых инициатив, но и по тому воздействию, которое он оказывает, и прогрессу, которому он будет способствовать. Международный год призван усилить признание вклада туризма, одновременно поощряя практические действия, способствующие развитию устойчивого и жизнестойкого туризма на национальном, региональном и международном уровнях.
14. Одним из показателей успеха станет более широкое признание вклада туризма. К концу 2027 года Международный год должен способствовать углублению понимания того, каким образом туризм создает возможности, укрепляет общины и способствует повышению устойчивости туристических направлений. Это предполагает более полное осознание роли туризма в контексте более широких экономических, социальных и экологических приоритетов, а также более прочное позиционирование туризма в соответствующих политических дискуссиях.
15. Успех должен также найти отражение в конкретных действиях. Международный год должен стимулировать практические инициативы, партнерства и сотрудничество, способствующие развитию устойчивого и жизнестойкого туризма в различных национальных и региональных условиях. Хотя характер таких действий будет различаться, все они должны демонстрировать стремление к преобразованию общих целей в ощутимые результаты.
16. Еще одним показателем успеха станет укрепление доказательной базы и накопление практических примеров, демонстрирующих вклад туризма и способствующих принятию обоснованных решений. Это включает поощрение сотрудничества в области сбора, обмена и использования данных о туризме, содействие обмену знаниями и распространение подходов, которые можно адаптировать и применять в различных условиях.
17. Успех должен также выражаться в более активном участии государств-членов и заинтересованных сторон. Международный год должен предоставить правительствам, национальным туристским администрациям, предприятиям, общинам, научным кругам, системе Организации Объединенных Наций и другим международным организациям возможности обмениваться опытом, укреплять сотрудничество и вносить вклад в осуществление общей глобальной повестки дня.
18. К концу 2027 года Международный год должен также способствовать укреплению потенциала правительств и туристских администраций в части демонстрации вклада туризма в достижение более широких национальных приоритетов и более эффективного позиционирования сектора в процессах разработки политики и принятия решений.
19. В конечном счете успех будет определяться тем, приведет ли Международный год к более глубокому признанию вклада туризма и более решительным действиям по максимальному использованию его преимуществ в течение длительного времени после 2027 года.

IV. Стратегические задачи

20. Для достижения этих результатов в рамках Международного года будут выполняться пять стратегических задач.

Усилить признание вклада туризма

21. Углубить понимание того, каким образом туризм создает возможности, укрепляет общины и способствует повышению устойчивости туристических направлений. Это включает содействие более широкому признанию вклада туризма в достижение более общих экономических, социальных и экологических целей, а также поддержку его интеграции в более широкие дискуссии по вопросам политики и развития.

Поощрение практических действий

22. Содействие инициативам, партнерствам и мероприятиям, способствующим развитию устойчивого и жизнестойкого туризма на национальном, региональном и международном уровнях. Особое внимание будет уделяться практическому осуществлению мероприятий и распространению подходов, способных обеспечивать ощутимые и долгосрочные результаты.

Укрепление базы знаний, доказательной базы и базы данных

23. Поддерживать сбор, обмен и использование фактических данных, демонстрирующих вклад туризма и способствующих принятию обоснованных решений. Это включает поощрение сотрудничества между правительствами, системой Организации Объединенных Наций, международными организациями, научным сообществом и другими заинтересованными сторонами в целях укрепления базы данных по туризму, обмена знаниями и практическим опытом.
24. Особое внимание будет уделяться взаимодействию в рамках системы Организации Объединенных Наций, включая ее специализированные учреждения, фонды и программы, с целью обеспечения скоординированного и согласованного подхода к развитию устойчивого и жизнестойкого туризма.

Развитие сотрудничества и партнерских отношений

25. Поощрять сотрудничество между государствами-членами, международными организациями, частным сектором, научным сообществом, организациями гражданского общества и другими заинтересованными сторонами. Международный год должен служить платформой для диалога, сотрудничества и развития партнерских отношений, способствующих достижению общих целей.

Содействие достижению долгосрочных результатов

26. Обеспечить, чтобы Международный год обеспечил выгоды, выходящие за рамки 2027 года. Это включает укрепление институционального потенциала, содействие накоплению практических знаний и фактологической базы и вклад в будущие дискуссии по вопросам жизнестойкости, устойчивости, расширения возможностей и развития.
27. В совокупности эти задачи формируют стратегическую основу Международного года и определяют направления деятельности, партнерских отношений и инициатив, осуществляемых на этапах подготовки, проведения и закрепления долгосрочных результатов.

V. Программа работы

28. Международный год будет проводиться на основе поэтапного подхода, призванного создать импульс, поддержать практические действия и обеспечить, чтобы результаты, достигнутые в 2027 году, способствовали долгосрочному воздействию, выходящему за рамки самого Международного года.

Этап	Основная задача	Показатели успеха
2026 год – подготовительный этап	Создание основы	Прочные основы, широкое участие и готовность к осуществлению мероприятий в 2027 году.
2027 год – Международный год	Признание и действия	Более широкое признание вклада туризма и активизация действий со

		стороны правительств и заинтересованных сторон.
После 2027 года – долгосрочные результаты	Устойчивое воздействие	Обеспечение долгосрочного воздействия за счет более эффективной политики, партнерств, фактических данных и информационно-разъяснительной работы.

Создание основы (2026 год)

29. Подготовительный этап будет сосредоточен на создании основ, необходимых для успешного проведения Международного года. Это включает формирование механизмов управления, взаимодействие с заинтересованными сторонами, коммуникационную деятельность, мобилизацию ресурсов и подготовительные мероприятия на национальном, региональном и международном уровнях. Особое внимание будет уделяться обеспечению широкого участия и созданию условий, позволяющих государствам-членам и заинтересованным сторонам вносить существенный вклад в выполнение задач Международного года.

Признание и действия (2027 год)

30. В ходе Международного года основное внимание будет уделяться усилению признания вклада туризма при одновременном поощрении практических действий, способствующих развитию устойчивого и жизнестойкого туризма. Мероприятия, проводимые на этом этапе, должны содействовать практическому осуществлению инициатив, укреплению сотрудничества, развитию обмена знаниями и демонстрации практических примеров, подтверждающих вклад туризма в создание возможностей, развитие общин и повышение устойчивости туристических направлений.

Обеспечение устойчивого воздействия (после 2027 года)

31. Этап закрепления долгосрочных результатов будет направлен на обобщение накопленного опыта, укрепление доказательной базы и партнерских отношений, а также на поощрение продолжения активных действий после завершения Международного года. Его цель заключается в том, чтобы обеспечить преобразование импульса, созданного в течение 2027 года, в долгосрочное воздействие и содействовать дальнейшему обсуждению вопросов жизнестойкости, устойчивости, расширения возможностей и развития.

VI. Рамочная основа проведения Международного года

32. Проведение Международного года будет опираться на гибкую рамочную основу, призванную содействовать участию, поощрять сотрудничество и воплощать признание в конкретные действия в различных национальных и региональных условиях.
33. Эта рамочная основа призвана обеспечить широкое участие, предоставляя при этом государствам-членам и заинтересованным сторонам возможность вносить свой вклад с учетом их приоритетов, потенциала и конкретных условий. Вместо того чтобы предписывать единый подход, она создает общую платформу, с помощью которой мероприятия, партнерства и инициативы могут способствовать выполнению общих задач.

Участие и вовлеченность

34. Международный год призван содействовать участию правительств, национальных туристских администраций, деловых кругов, общин, научных кругов, организаций гражданского общества, системы Организации Объединенных Наций, международных организаций и других заинтересованных сторон. Широкое участие будет иметь решающее значение для обеспечения того, чтобы Международный год отражал многообразие взглядов и опыта и способствовал достижению значимых результатов в различных условиях.

Сотрудничество и партнерские отношения

35. Сотрудничество между заинтересованными сторонами станет одним из ключевых элементов Международного года. Рамочная основа призвана поощрять взаимодействие между секторами и учреждениями, поддерживать развитие партнерских отношений и содействовать обмену опытом и передовой практикой, способствующими развитию устойчивого и жизнестойкого туризма.

Знания, доказательная база и данные

36. Международный год будет способствовать накоплению, обмену и использованию знаний, фактических данных и практических примеров, демонстрирующих вклад туризма и содействующих принятию обоснованных решений. Особое внимание будет уделяться поощрению сотрудничества в области сбора, обмена и использования данных по туризму, а также укреплению доказательной базы, доступной государствам-членам и заинтересованным сторонам.

Практические действия

37. Международный год призван стимулировать практические инициативы, способствующие развитию устойчивого и жизнестойкого туризма. Хотя конкретные мероприятия будут различаться в зависимости от стран и регионов, основное внимание будет по-прежнему уделяться практическому осуществлению, извлечению уроков и применению подходов, способных обеспечивать ощутимые результаты и долгосрочное воздействие.

Обмен опытом и долгосрочное воздействие

38. Международный год предоставит заинтересованным сторонам возможности для обмена опытом, выявления передовой практики и использования извлеченных уроков. Посредством поощрения сотрудничества, укрепления доказательной базы и поддержки практического осуществления мероприятий данная рамочная основа направлена на обеспечение того, чтобы результаты Международного года сохраняли свою значимость и после 2027 года и способствовали достижению долгосрочного воздействия.

VII. Тематические области

39. Международный год основывается на пяти тематических областях, отражающих ключевые аспекты устойчивого и жизнестойкого туризма. В совокупности эти темы формируют общую основу для диалога, сотрудничества и действий, одновременно предоставляя государствам-членам и заинтересованным сторонам возможность учитывать приоритеты, актуальные для их собственных условий.

1. Возможности и процветание

40. Туризм создает рабочие места, обеспечивает средства к существованию и способствует развитию местной экономики. Это тематическая область сосредоточена на укреплении вклада туризма в создание экономических возможностей посредством устойчивого роста, формирования добавленной стоимости на местном уровне, развития предпринимательства и укрепления устойчивости экономики туризма.

2. Общины и инклюзивность

41. Туризм способен создавать возможности для отдельных лиц и общин, одновременно способствуя социальной интеграции и всеобщему процветанию. Данная тематическая область направлена на обеспечение более справедливого распределения выгод от туризма посредством поддержки участия, доступности, достойной занятости и расширения возможностей для местных общин.

3. Культура и наследие

42. Культура и наследие являются неотъемлемой частью самобытности и привлекательности туристических направлений. Данная тематическая область направлена на сохранение и популяризацию культурного наследия, поддержку культурного разнообразия и укрепление роли туризма в сохранении и раскрытии уникального характера территорий и общин.

4. Природа и рациональное природопользование

43. Туризм зависит от состояния природной среды и устойчивости экосистем. Данная тематическая область сосредоточена на поощрении подходов, способствующих экологической устойчивости, ответственному управлению ресурсами и сохранению природных богатств и биоразнообразия.

5. Жизнестойкость и готовность

44. Сфера туризма работает во все более сложных и неопределенных условиях. Данная тематическая область направлена на укрепление жизнестойкости, готовности и способности туристических направлений и туристских систем прогнозировать, реагировать на потрясения и новые вызовы и восстанавливаться после них.
45. В совокупности эти тематические области создают практическую основу для содействия развитию устойчивого и жизнестойкого туризма, учитывая при этом разнообразие национальных условий, приоритетов развития и моделей туризма в государствах-членах.

VIII. Управление и координация

46. Механизмы управления проведением Международного года призваны обеспечивать координацию, содействовать участию и предоставлять стратегические ориентиры при сохранении необходимой гибкости для государств-членов и заинтересованных сторон.

Руководящий комитет

47. Для обеспечения стратегического руководства и надзора за проведением Международного года будет учрежден Руководящий комитет. Комитет будет содействовать координации между участвующими организациями и партнерами, обеспечивать согласованность усилий с задачами Международного года и способствовать широкому вовлечению заинтересованных сторон на этапах подготовки, проведения и закрепления долгосрочных результатов.
48. Руководящий комитет будет выполнять консультативные функции и содействовать проведению консультаций и координации между государствами-членами и заинтересованными сторонами. Более подробная информация о его составе и функциях содержится в приложении I.

Участие государств-членов

49. Государства-члены будут играть центральную роль в формировании концепции и проведении Международного года. Их опыт, приоритеты и вклад будут способствовать определению мероприятий, проводимых на национальном, региональном и

международном уровнях, и обеспечат отражение в рамках Международного года многообразия взглядов, условий и приоритетов развития.

Поддержка со стороны Секретариата

50. «ООН Туризм» будет содействовать проведению Международного года в соответствии с резолюцией 78/260 Генеральной Ассамблеи Организации Объединенных Наций. Это включает поддержку координации, поощрение сотрудничества между заинтересованными сторонами и содействие обмену знаниями, фактическими данными и передовой практикой.

Консультативная поддержка

51. В рамках Международного года может использоваться экспертный потенциал и опыт соответствующих организаций, учреждений и партнеров, включая учреждения системы Организации Объединенных Наций, для содействия обмену знаниями, формирования доказательной базы и сотрудничества в различных тематических областях и регионах.

IX. Финансирование

52. Генеральная Ассамблея Организации Объединенных Наций в резолюции 78/260 указала, что расходы, связанные с проведением Международного года устойчивого и жизнестойкого туризма 2027 года, должны покрываться за счет добровольных взносов.
53. Таким образом, проведение Международного года будет зависеть от добровольной финансовой поддержки со стороны государств-членов и других правомочных доноров в соответствии с применимым финансовым регламентом, правилами и процедурами «ООН Туризм».
54. Для обеспечения прозрачного и надлежащего управления такими взносами будет открыт специальный счет для проектов в рамках Международного года. Этот счет будет служить механизмом для получения, управления и распределения добровольных взносов в поддержку мероприятий, проводимых в рамках Международного года.
55. Все взносы, поступающие на этот счет, будут управляться в соответствии с применимым финансовым регламентом, правилами и процедурами «ООН Туризм».
56. Открытие счета для проектов будет способствовать своевременной мобилизации ресурсов, укреплению прозрачности и подотчетности, а также поможет обеспечить эффективное и скоординированное проведение Международного года.

X. Долгосрочные результаты

57. Долгосрочные результаты Международного года следует оценивать не только по мероприятиям, проведенным в 2027 году, но и по долгосрочному воздействию, которое сохранится после его завершения. Международный год призван создать импульс, выходящий за рамки одного календарного года и способствующий более широкому признанию, более активным действиям и принятию более обоснованных решений в последующие годы.
58. В более фундаментальном плане Международный год должен способствовать углублению понимания туризма не просто как отдельного сектора экономики, но и как фактора, способствующего решению более широких экономических, социальных и экологических задач. Его долгосрочные результаты должны находить отражение в том, насколько полно туризм учитывается в более широких дискуссиях по вопросам развития, устойчивости, расширения возможностей и благополучия местных общин.
59. Одним из элементов этих долгосрочных результатов должно стать укрепление аргументации в пользу туризма. Демонстрируя, каким образом туризм создает возможности, укрепляет общины и способствует повышению устойчивости туристских

направлений, Международный год должен содействовать более глубокому пониманию вклада туризма со стороны правительств, системы Организации Объединенных Наций и более широкого сообщества специалистов в области развития.

60. Международный год должен также оставить после себя прочную доказательную базу и более широкий набор практических примеров. Извлеченные уроки, передовая практика и накопленные знания должны способствовать укреплению базы знаний, доступной государствам-членам и заинтересованным сторонам, а также поддерживать более обоснованную разработку политики, планирование и принятие решений. Это включает поощрение более тесного сотрудничества в области сбора, обмена и использования данных о туризме в целях более полного понимания и демонстрации его вклада.
61. Еще одним долгосрочным результатом должно стать укрепление национальной ответственности и информационно-разъяснительной деятельности. Международный год должен способствовать укреплению потенциала правительств и национальных туристических администраций в части демонстрации вклада туризма в достижение более широких национальных приоритетов и более эффективного позиционирования сектора в процессах разработки политики и принятия решений.
62. Опыт и доказательная база, сформированные в ходе Международного года, должны также способствовать тому, чтобы туризм оставался частью будущих обсуждений по вопросам жизнестойкости, устойчивости, расширения возможностей и развития. Таким образом, это может содействовать укреплению вклада туризма в формирование будущей политики, партнерств, а также в усилия в области развития.
63. В конечном счете долгосрочные результаты Международного года будут определяться тем, способствует ли он более широкому признанию роли туризма и более решительным действиям для максимального использования его преимуществ в интересах людей, общин и туристических направлений еще долгое время после окончания 2027 года.

Annex I: Terms of Reference of the Steering Committee for the International Year of Sustainable and Resilient Tourism 2027

Preamble

Annex III: Guidance documents in support of the framework for the International Year of Sustainable and Resilient Tourism 2027

I. Thematic Areas and Rationale

1. Inclusive, sustainable and resilient economic growth and local value creation

Tourism is a major driver of economic growth and employment, particularly at the local level. Strengthening the sustainability and inclusiveness of tourism value chains enhances their capacity to withstand shocks, adapt to change and sustain long-term development outcomes.

This thematic area highlights tourism's role in fostering diversified, locally anchored and resilient economic activity, with particular attention to Micro, Small and Medium-sized Enterprises (MSMEs), domestic tourism and diversified products and markets. By reducing over-dependence on single markets, seasons or activities, and by promoting fair participation and shared benefits along the value chain, tourism can contribute to economic stability, inclusive growth and local value creation while reinforcing resilience across destinations.

2. Social inclusion, decent work, poverty reduction and community resilience

Inclusive tourism development is a fundamental condition for resilience. When tourism benefits are widely shared and access to opportunities is ensured, communities are better able to absorb, respond to and recover from economic, environmental and social shocks.

This thematic area emphasizes tourism's contribution to decent work, poverty reduction and the economic empowerment of women, youth, Indigenous Peoples and local communities. It underscores the importance of community participation in tourism planning and decision-making, universal accessibility and social protection, strengthening social cohesion, local ownership and human capital as pillars of resilient tourism systems.

In this context, approaches that go beyond minimizing negative impacts and actively seek to strengthen communities, livelihoods and local capacities, including approaches often described as regenerative, can contribute to more durable, inclusive and self-sustaining development outcomes.

3. Environmental protection, biodiversity conservation, resource efficiency and climate action

Tourism depends directly on healthy ecosystems and natural resources, while at the same time exerting pressure on the environment. Strengthening environmental protection is therefore a prerequisite for sustainable and resilient tourism development.

In line with General Assembly resolution 78/260, this thematic area emphasizes environmental protection and biodiversity conservation as central pillars of sustainable and resilient tourism, while promoting resource efficiency and advancing climate action through mitigation and adaptation measures. By integrating environmental considerations into tourism policy, planning, investment and operations, including through the engagement of workers, communities and local stakeholders, destinations can reduce environmental degradation, lower vulnerability to climate-related risks and safeguard the natural foundations upon which tourism, livelihoods and community wellbeing depend.

In this regard, practices that aim not only to reduce environmental harm but also to restore and enhance ecosystems and natural capital, including regenerative approaches, may further strengthen the contribution of tourism to long-term resilience and sustainability.

4. Cultural values, diversity, living heritage and destination identity

Cultural heritage and diversity are core assets of tourism and central to destination identity, social cohesion and community resilience. When cultural resources are safeguarded and communities are empowered as custodians of their heritage and active participants in tourism development, tourism can reinforce continuity, pride and intergenerational knowledge.

This thematic area highlights tourism's role in protecting and promoting tangible and intangible cultural heritage, supporting creative industries and fostering place-based development. Emphasis is placed on living heritage and locally rooted narratives that strengthen destination identity, while ensuring that cultural tourism development remains inclusive, respectful and resilient to external pressures.

5. Mutual understanding, peace, security and crisis preparedness

Tourism fosters dialogue, mutual understanding and peaceful interaction among peoples, while also being highly sensitive to crises, insecurity and disruptions. Strengthening preparedness and trust is therefore essential for resilient tourism development.

This thematic area underscores tourism's contribution to peace, social stability and international understanding, while highlighting the importance of risk-informed governance, crisis preparedness and coordinated response mechanisms, including cooperation across institutions, communities and sectors. It includes the protection of tourists, effective communication, cross-border and cross-sector cooperation, and the integration of tourism into broader emergency, health and security frameworks to support faster recovery and sustained confidence.

II. Flagship Events

The International Year of Sustainable and Resilient Tourism 2027 (hereinafter, the International Year) provides a global platform to advance tourism as a driver of sustainable development and resilience. Mandated by the United Nations General Assembly and facilitated by UN Tourism, the International Year aims to mobilize governments, the United Nations system, international and regional organizations, the private sector, academia and civil society around a shared agenda to strengthen tourism's contribution to inclusive economic growth, environmental stewardship and social cohesion.

The designation of an International Year creates a rare, time-bound political window in which attention, commitment and visibility converge. It generates a unique momentum that goes beyond routine sectoral exchanges and allows tourism to be positioned within broader debates on resilience, territorial development and sustainable transformation. In this context, one flagship event per region will serve as a defining milestone of the International Year, transforming global ambition into regionally anchored progress. These moments will help accelerate alignment across policy areas, stimulate durable partnerships and translate shared objectives into concrete pathways that extend beyond 2027.

Taken together, the five flagship events (hereafter "the flagship events") will shape a coherent global architecture under the International Year, reinforcing tourism's structural role in strengthening inclusive and resilient societies and ensuring that the momentum generated in 2027 contributes meaningfully to the evolving post-2030 development landscape.

1. Objectives

Under the International Year, the flagship events, one hosted in each UN Tourism region, will serve as defining milestones of 2027. While regionally anchored, each event will carry global relevance, addressing structural dimensions of sustainability and resilience that extend beyond regional boundaries.

Each event will translate the thematic pillars of the International Year into region-specific leadership and action. By focusing on distinct regional priorities, the events will reflect diverse economic structures, development pathways and risk environments, while contributing to a shared global narrative.

Together, the flagship events will form a coherent and differentiated architecture that ensures balanced geographic representation, thematic depth and strategic complementarity. Rather than duplicating discussions, they will demonstrate how sustainable tourism strengthens inclusion, resilience and long-term competitiveness across diverse global contexts.

2. Opening and Closing of the International Year

a. Opening Ceremony

The event will serve as the formal opening moment of the International Year, marking the transition from the preparatory phase of 2026 to a year of global implementation.

The launch will underscore that the International Year is not a stand-alone celebration, but a coordinated global effort designed to strengthen tourism's contribution to resilience and inclusion while preparing the sector for the post-2030 development framework.

Particular attention will be given to National Committees as the backbone of implementation, the central role of capacity-building in translating principles into practice and the contribution of the five flagship events in shaping regionally grounded yet globally relevant outcomes.

The event will clearly position the International Year as a structured consultation process for the positioning of tourism within the evolving Agenda 2030+ discussions. As communication materials and campaign elements will already have been introduced in advance, the opening will focus on setting political direction, reinforcing institutional coherence and consolidating a shared commitment.

To fulfil this role effectively, the Opening should be organized as a high-level half-day event with arrangements that enable broad global access for Member States, facilitate the participation of Steering Committee members and ensure strong international media involvement. The format and programme should be developed in line with the overall architecture of the International Year and the host setting. Given the political importance and global visibility of the Opening, the host arrangement should also ensure an appropriate level of financial and organizational support so that the event can be delivered to the standard required for a major milestone of the International Year.

b. Closing Ceremony

The closing moment, possibly anchored at FITUR in early 2028, will be the opportunity for UN Tourism and all stakeholders to reflect and inform on the performance and impact of the International Year. More importantly, it will present the consolidated outcome of the global consultation process as the central legacy of the Year.

This outcome, derived from flagship and other events held throughout the Year, national processes, flagship reports and the rolling analytical roadmap, will form the substantive basis for tourism's positioning in the post-2030 negotiations.

In this context, lead Member States and institutional representatives, including the Chair of the Committee on Tourism and Sustainability, the Chair of the Executive Council and members of the Steering Committee, will jointly outline the next phase of engagement within the UN process.

While the Closing Ceremony will mark the official conclusion of the International Year, it will also set out how its findings, conclusions and recommendations can continue to inform and shape the coordinated negotiation phase, ensuring that tourism's contribution to resilience, inclusion and sustainable development is carried forward through structured leadership and coalition-building at the global level.

3. Flagship Events

Themes and partners

This section outlines the thematic focus of the Flagship Events, one to be held in each region as a central component of the International Year. These events are directly linked to the thematic pillars of the International Year and translate global objectives into region-specific priorities. Each Flagship Event will address a defining regional dimension of sustainability and resilience, contributing to a coherent global architecture while reflecting diverse development contexts and risk environments.

The below themes and partners are intended as proposals for the consideration of the Member States and alternative themes and partners may also be proposed by interested host States. The final decision on the themes and venues of the flagship events will be taken by the UN Tourism Secretary-General after due consideration of the proposals received by Member States.

3.1. Africa

Theme: Biodiversity, Rural Livelihoods and Resilient Local Economies

Many destinations around the world depend on nature-based tourism. Strengthening local value chains and integrating biodiversity protection enhances long-term economic stability and community resilience. Tourism in these contexts is closely intertwined with ecosystem integrity and community wellbeing, making it a powerful lever for inclusive and sustainable growth.

The event will focus on:

- Tourism financing for protected areas
- Community-based tourism models
- Youth employment and skills development
- Enhancing the positioning and branding of destinations

3.2. Americas

Theme: Financing Resilient Tourism Value Chains

Tourism represents both a mature economic sector and a critical source of income for vulnerable economies. Strengthening tourism value chains through innovative financing mechanisms and enhanced support to micro, small and medium-sized enterprises is essential to protect destinations from economic volatility and systemic shocks.

Sustainable tourism finance and risk-sharing instruments can reinforce economic stability, promote digital integration and strengthen the resilience of tourism-dependent communities.

The event will focus on:

- Public-private investment models
- Innovative financing and risk-sharing instruments
- SME resilience and digital transformation
- Strengthening regional tourism value chains

3.3. Asia-Pacific

Theme: Skills, Innovation and Resilient Tourism Growth

In many destinations, tourism development combines dynamic economic growth with rapid technological innovation and evolving labour market conditions. At the same time, destinations face demographic shifts, climate exposure and increasing competitive pressures. Strengthening tourism resilience in this context requires a focus on human capital, innovation ecosystems and adaptive growth models.

By investing in skills development, fostering entrepreneurship and integrating technological innovation into tourism systems, destinations can strengthen long-term competitiveness while ensuring that growth remains inclusive and resilient.

The event will focus on:

- Workforce development, lifelong learning and skills mobility
- Innovation ecosystems and digital transformation in tourism
- Support to SMEs and start-up environments
- Adaptive growth models in rapidly expanding destinations
- Integrating climate awareness into long-term tourism planning

3.4. Europe

Theme: Strengthening Inclusive and Resilient Territories through Sustainable Tourism

Sustainable tourism plays a leading role in maintaining connectivity, strengthening transport and digital infrastructure and supporting high-value economic activity across varied geographic contexts.

By advancing inclusive and balanced territorial development, sustainable tourism helps ensure that prosperity is broadly shared, regional disparities are addressed and demographic vitality is sustained. In doing so, tourism reinforces social cohesion and strengthens the long-term resilience and competitiveness of the world's diverse territories.

The event will focus on:

- Tourism as a driver of balanced territorial development and regional cohesion
- Strengthening connectivity and infrastructure in diverse geographic contexts
- Inclusive growth models that address demographic change and regional disparities
- Sustainable investment strategies in culturally and environmentally sensitive areas
- Integrating tourism into broader territorial and resilience policy frameworks

3.5. Middle East

Theme: Diversification, Stability and Long-Term Transformation

Tourism is increasingly positioned as a central pillar of economic diversification. As countries pursue structural transformation, sustainable tourism investment contributes to employment generation, heritage preservation and long-term economic resilience.

Strengthening environmental sustainability and regional cooperation will reinforce tourism's role in supporting stability and inclusive development.

The event will focus on:

- Diversification beyond traditional economic sectors
- Sustainable investment frameworks
- Technology and Innovations
- Heritage-led regeneration

Hosting Conditions

It should be recalled that in accordance with [resolution 662\(XXI\)](#), the General Assembly explicitly requests that Member States hosting a UN Tourism meeting provide the conditions set forth in the template agreement developed by the Secretariat, which serves as the legal framework for host country agreements. It is based primarily on Article 32 of the [Statutes](#), the [Convention on the Privileges and Immunities of the Specialized Agencies](#) and its [Annex XVIII](#) (applicable to UN Tourism), relevant General Assembly resolutions, and aligns with the overall United Nations policy on the matter. It is recommended that Member States interested in hosting a flagship event review the template agreement in advance to preparing a bid.

4. UN System engagement

A central political objective of the International Year will be to secure sustained high-level engagement within the wider United Nations system and to ensure that tourism is substantively reflected in discussions shaping the post-2030 development framework.

Engagement will begin in 2026, aligned with major intergovernmental milestones. The High-Level Political Forum in July 2026 and the 81st session of the United Nations General Assembly in September 2026 will provide early opportunities to position tourism within broader sustainable development debates and to initiate dialogue with the incoming President of the General Assembly. Early coalition-building among Member States will be essential to explore the establishment of a thematic focus on tourism during the 2027 session.

The 2027 SDG Summit, convened at Head-of-State level, represents a pivotal political moment. This milestone will allow tourism's contribution to resilience, inclusion and structural transformation to be reflected within the mid-term review of the 2030 Agenda.

Engagement in environmental negotiation spaces in 2026 will serve as preparation for the International Year. In particular, CBD COP17 provides a high-impact opportunity to consolidate tourism's role within biodiversity finance and nature-positive economic models. As the Biodiversity Conference convenes biennially, substantive and visible engagement will be essential. Building on the successful positioning achieved at the previous COP, tourism can further demonstrate its unique capacity to generate economic value from nature while reinforcing conservation incentives, including through net-positive approaches developed in partnership with key private sector actors.

Across these processes, the focus will be on securing durable outcomes, including joint policy briefs, structured contributions to outcome documents and coordinated cross-agency initiatives. The objective is to move beyond visibility and ensure that tourism is integrated into substantive policy language that will inform the emerging post-2030 negotiations.

5. UN Tourism GA and World Tourism Day

5.1. World Tourism Day (27 September 2027)

Hosted by Cabo Verde with the theme "Transforming Tourism through Education," will provide an important milestone. It will highlight the role of education, skills and human capital in building resilience across the sector and will mobilise youth, academia, training institutions and industry partners around this agenda. As a widely recognised global observance, World Tourism Day will strengthen public engagement in the International Year and create momentum in the weeks leading up to the General Assembly, linking the campaign's broader narrative with the more technical and policy-oriented discussions that will follow.

5.2. UN Tourism General Assembly (October/ November 2027)

The GA will provide a very unique and important platform for presenting the key analytical outputs, including the flagship studies and the rolling analytical roadmap for the post-2030 agenda and for showcasing Member State achievements emerging from national committees, regional consultations and capacity-building activities.

The Assembly will also enable a high-level debate on the future positioning of tourism in global development frameworks and serve as the moment to consolidate the legacy of the International Year, whether through ministerial dialogue, the adoption of final recommendations or the consideration of pathways that may extend its impact beyond 2027.

III. Guidance Note on National Committees

National Committees

Role, Functions and Working Arrangements under the International Year of Sustainable and Resilient Tourism 2027 (IYSRT 2027)

This note provides complementary guidance on the role, functions and working arrangements of National Committees established in the context of the International Year of Sustainable and Resilient Tourism 2027 (IYSRT 2027). It should be read in conjunction with the overall framework and guidance documents for the International Year and is intended to support Member States in organizing national-level coordination and delivery, in line with their institutional contexts and priorities.

1. Purpose of National Committees

According to the Guidelines for International Years (ECOSOC Resolution [1980/67](#)), there should be ordinarily national committees or other mechanisms for preparing for, conducting, and following up the international year at the national level.

This guidance is reinforced by UN General Assembly resolution ([A/RES/78/260](#)), which recognizes sustainable and resilient tourism as a cross-cutting driver of sustainable development, calls for its promotion by all stakeholders, and encourages leveraging the International Year as a catalyst to advance sustainable development. The resolution highlights tourism's contributions to economic growth, poverty reduction, decent work, sustainable consumption and production, and responsible resource use. It also underscores the sector's role in biodiversity conservation, cultural understanding, social inclusion-including the empowerment of women, youth, Indigenous Peoples and local communities - and rural development, while emphasizing the need for coordinated, value chain-wide action to ensure sustainability and resilience.

To this effect, National Committees are envisaged as national-level coordination platforms to support the preparation, observance and follow-up of the International Year of Sustainable and Resilient Tourism 2027.

National Committees shall play a central role in ensuring effective coordination among governmental and non-governmental actors, aligning and harmonizing activities undertaken in the context of the International Year and communicating internationally agreed priorities and messages to stakeholders at national and local levels. Throughout 2027, National Committees will form the backbone of Member State engagement with the International Year.

It should be noted that such National Committees are not intended as global governance or decision-making bodies, nor do they replace existing national institutions or coordination mechanisms. Rather, they are to provide a flexible and scalable means for Member States to organize engagement with the International Year, ensure coherence across activities undertaken at national and local levels and contribute, on a voluntary basis, to regional and global exchanges of experience and learning.

2. Key Objectives of National Committees for the IYSRT 2027

In support of the objectives of the International Year of Sustainable and Resilient Tourism 2027, National Committees may, taking into account national priorities and institutional contexts, focus on the following objectives:

- raise public awareness of the contribution of sustainable and resilient tourism to broader development processes, including social inclusion and community empowerment;
- facilitate dialogue and coordination around measures that strengthen tourism business ecosystems, including discussion of enabling conditions for SMEs, investment and access to finance, where relevant;

- support reflection on legal, policy and institutional frameworks that enable sustainable and resilient tourism development, without prejudice to national decision-making processes;
- encourage leadership development, skills enhancement and youth engagement related to the future of tourism, including through forward-looking and innovation-oriented approaches;
- contribute to the generation and consolidation of national and regional evidence, good practices and policy dialogue relevant to future global frameworks; and
- support structured consultation and learning processes that may inform broader reflections on resilience, sustainability and tourism in the context of the post-2030 development agenda and future multilateral processes.

National Committees are not expected to address all objectives listed above. The selection and scope of objectives remain at the discretion of each Member State and should reflect national capacities, priorities and existing policy frameworks.

3. Role and Functions

Within the framework of the IYSRT 2027 and in accordance with applicable guidance, National Committees are generally expected to:

- Coordinate the preparation, implementation and follow-up of national activities related to IYSRT 2027;
- Develop a strategic action plan aligned with the objectives of the International Year;
- Authorize and register events, initiatives and activities undertaken under the International Year at national and local levels, in line with agreed guidance and criteria;
- Ensure alignment of activities with the objectives, principles and messaging of the International Year;
- Mobilize and engage relevant stakeholders across government, the private sector, civil society, academia and international partners;
- Promote awareness and advocacy on the contribution of sustainable and resilient tourism to sustainable development;
- Facilitate capacity-building and knowledge-sharing in support of the tourism sector; and
- Provide structured inputs, summaries and reflections to UN Tourism to support regional and global processes and reporting related to the International Year.

In particular, National Committees may authorize, coordinate and oversee activities undertaken at national and local levels, in line with national guidance and the objectives of the International Year.

Such activities may include:

- coordinate the development and dissemination of nationally focused outreach and promotional materials including digital content linked to the official IYSRT 2027 platforms;
- organize or endorse meetings, conferences and events addressing national and local priorities related to sustainable and resilient tourism;
- support communication and awareness-raising initiatives, including engagement with national media, consistent with the overall messaging of the International Year;
- facilitate capacity-building and training activities for tourism and related-sector stakeholders, including through the dissemination of guidelines, tools and resources;

- support collaboration with academic and research institutions to strengthen evidence, data collection and analysis relevant to resilience and sustainability in tourism;
- encourage multi-stakeholder dialogue on policy-relevant issues linked to sustainable and resilient tourism, without prejudice to formal national policy-making or legislative processes;
- document activities, initiatives and outputs carried out during the International Year, including examples of good practice and lessons learned;

The above list is indicative and non-exhaustive.

National Committees may also contribute to the preparation of national summaries or reflections at the conclusion of the International Year, focusing on activities undertaken and key insights generated, in line with guidance provided by UN Tourism.

For the purposes of the International Year, National Committees, or as appropriate, may apply differentiated approaches to the authorization and oversight of activities, taking into account their nature and intended purpose. In particular, a distinction may be made between communication and public engagement activities, and policy-oriented, capacity-building or standards-related activities, which may be subject to different levels of criteria, documentation and follow-up.

4. Establishment of National Committees

National Committees should be inclusive and reflect the diversity of actors involved in tourism and related policy areas at a national level, while maintaining clear leadership and accountability for coordination, authorization and reporting functions. They should be anchored in, or formally convened by, the ministry or authority responsible for tourism, to serve as the primary contact for UN Tourism and to support coordination of the National Committee.

National Committees should be inclusive and made up of actors at the national level such as:

- the ministry or authority responsible for tourism, serving as the national focal point;
- relevant public institutions, including those responsible for environment, culture, finance, climate change, water management, land use and local government;
- private sector associations;
- civil society organizations and NGOs, including those addressing decent work and poverty eradication through tourism;
- legal, academic and research institutions with relevant expertise;
- representatives of local communities and other relevant stakeholders;
- United Nations Country Teams, including the Office of the Resident Coordinator, where appropriate, and in line with national arrangements.

The size, composition and working modalities of National Committees should remain flexible and proportionate, reflecting national capacities, institutional contexts and the scope of activities undertaken under the International Year.

Where appropriate, Member States may build on existing inter-ministerial, inter-agency or multi-stakeholder coordination mechanisms, rather than establishing new bodies specifically for the International Year.

5. Working Arrangements

For the purposes of the International Year of Sustainable and Resilient Tourism 2027, Member States are invited to establish appropriate working arrangements to enable National Committees to carry out their coordination, authorization and reporting functions effectively.

Member States may consider the following steps:

1. identifying and convening relevant public and non-public stakeholders, ensuring balanced representation and effective partnership arrangements;
2. establishing, as appropriate, national guidance and procedures for the registration, authorization and monitoring of activities undertaken under the International Year;
3. defining practical modalities for documentation and reporting of activities and outcomes to UN Tourism, in line with guidance provided at global level;
4. where appropriate, involving the United Nations Country Team and integrating activities related to the International Year into relevant national and UN work programmes.

National Committees are encouraged to adopt pragmatic and proportionate working methods, including the preparation of a light action plan or activity framework for the International Year, reflecting national priorities and capacities.

6. Coordination, Communication and Secretariat Support

National Committees are responsible for coordinating national-level activities undertaken in the context of the International Year of Sustainable and Resilient Tourism 2027, and for ensuring their alignment with applicable national and international guidance, objectives and principles. They are expected to establish appropriate arrangements for the identification, authorization, monitoring and documentation of events and activities including verification of compliance with agreed guidance and criteria.

Information on activities undertaken should be consolidated and validated at national level and transmitted to UN Tourism in an aggregated and structured manner, in line with guidance provided at international level, for the purposes of regional and global overviews, reporting and collective learning.

In line with national arrangements, National Committees may coordinate the use of the IYSRT 2027 name and logo at the national level, in accordance with official UN Tourism guidelines. This does not extend to the use of the name, emblem or official seal of UN Tourism or of the United Nations, which remains subject to prior written authorization. A partner portal will support registration of organizations, logo authorization requests, and the upload of activity information, enabling transparent and scalable participation. The National Committee should maintain a central register of all authorized users, and any further dissemination should require explicit approval or adherence to predefined guidelines to prevent misuse, reputational risks, or dilution of the logo's meaning.

National Committees shall not, in any manner whatsoever, use the name, emblem or official seal of UN Tourism or the UN, or any abbreviation of the name of UN Tourism or the UN, in connection with its activities for the IYSRT 2027 or otherwise without the prior written permission of UN Tourism. Under no circumstances shall authorization be provided to use the name, emblem or official seal of UN Tourism or the UN, or any abbreviation of the name of UN Tourism or the UN, for commercial purposes.

The UN Tourism Secretariat provides overall coordination, international guidance and technical support for the International Year, including common principles, templates and reporting formats. This support complements national leadership and ownership and does not entail the centralized management or validation of individual events or activities.

Through these arrangements, National Committees serve as the primary interface between national implementation and international consolidation, ensuring effective two-way communication and structured contribution to regional and global processes.

7. Funding National Committees

The UNGA resolution [A/RES/78/260](#) proclaiming the International Year of Sustainable and Resilient Tourism 2027 stresses that the costs of all the activities that may arise from the implementation of the International Year should be met through voluntary contributions. The resolution also encourages all States, the United Nations system, and other stakeholders to seize the International Year as an

opportunity to promote actions at all levels - including through international cooperation - and to advance sustainable and resilient tourism as a driver for sustainable development. National governments are encouraged to allocate budgetary resources to selected activities, enhancing their engagement and enabling greater impact at the national level.

IV. Capacity Building Purpose and Criteria

Capacity-Building

Purpose and Criteria for Capacity Building Activities Supporting the International Year of Sustainable and Resilient Tourism 2027 (IYSRT 2027)

This document provides complementary guidance on the purpose, scope and criteria governing capacity-building activities undertaken in the context of the International Year of Sustainable and Resilient Tourism 2027 (IYSRT 2027). It should be read in conjunction with the overall framework and guidance documents for the International Year, including the Guidance Note on National Committees and other thematic and operational guidance issued by UN Tourism.

For the purposes of the present document, the International Year of Sustainable and Resilient Tourism 2027 is hereinafter referred to as “the International Year”.

The United Nations defines capacity building as the process to develop and strengthen skills and abilities². It forms an integral component of the Agenda 2030 and the achievement of the Sustainable Development Goals. Understanding that potential target audiences of the capacity building initiatives undertaken within the framework of the International Year will be diverse, from both tourism and non-tourism related backgrounds, for the purpose of this present document, the term “capacity building” refers not only to developing new skills and abilities but also to enhance, strengthen and diversify existing capacities and knowledge.

The present document is intended to support National Committees, or as appropriate, any other national coordination mechanisms established for the same purpose, in identifying, authorising and overseeing capacity-building activities at national and local levels. It aims to ensure that such activities are people-centred, implementation-oriented and catalytic, and that they contribute meaningfully to the objectives, principles and legacy of the International Year, while allowing flexibility in line with national circumstances and priorities.

Capacity-building under the International Year serves as a central delivery mechanism for translating thematic priorities into strengthened institutional capacity and improved conditions on the ground.

This document does not establish a centralised approval mechanism, nor does it replace national decision-making processes or existing institutional arrangements. It provides a common reference framework to support coherence, quality, accountability and shared understanding across capacity-building activities undertaken under the International Year.

1. Capacity-Building as a Delivery Mechanism

Sustainability is not a static objective but a continuous process requiring ongoing learning, adaptation and improvement. Resilience has become an essential and overdue dimension of this process, ensuring that tourism systems are capable not only of withstanding shocks but also of advancing their development responsibly and in alignment with broader societal, economic and environmental objectives.

Under the International Year, this strengthened focus places particular emphasis on the capacities of people and institutions to translate principles into practice. Capacity-building therefore plays a central role in enabling implementation, strengthening coordination and supporting informed decision-making.

2. Core Criteria for Capacity-Building Activities Supporting the International Year

² United Nations, Academic Impact, available at: <https://www.un.org/en/academic-impact/capacity-building> (26-02-2026)

To ensure coherence, quality and measurable impact across diverse national contexts, capacity-building activities supporting the International Year shall comply with the mandatory criteria set out below and integrate at least two of the optional criteria.

These criteria establish a common minimum standard while allowing flexibility in format, scale and implementation.

2.1. Mandatory Criteria

The following mandatory criteria apply to all capacity-building activities supporting the International Year. These criteria establish a common minimum standard to ensure coherence, quality and measurable impact across diverse national contexts.

1. Policy awareness and system literacy
Participants will jointly identify and discuss relevant national and local policies and strategies. They will examine how these policies connect to international frameworks such as the 2030 Agenda. The aim is to strengthen participants' understanding of how different levels of policy and governance, including both tourism-specific and tourism-related policies, interact (system literacy) and to ensure they are aware of existing policies and how these can align and support each other effectively (policy awareness and coherence).
2. Plurality of development approaches
The activity will present and discuss different established approaches and schools of thought which guide tourism development, management and governance (for example, market-based, product-based or community-led approaches). What are the short, medium and long-term objectives with regard to tourism development at the destination? Which approach would best facilitate achieving these objectives? How can sustainability and resilience be mainstreamed into this process? Rather than promoting a single viewpoint, it will encourage participants to reflect on context-specific trade-offs.
3. Sustainable Development Goals (SDG)-linked action commitment
Each participant will identify two to three relevant SDG targets and publicly commit to carrying out at least one concrete action within their institutional mandate that contributes to a chosen target within a defined timeframe (e.g. 6–12 months).
4. Knowledge multiplication
Participants will commit to sharing the key insights from the activity with at least 10 other people, using simple dissemination materials. This could include, where appropriate, a blog post, social media post referencing the official International Year hashtag, or engagement through print, radio or television media. Knowledge multiplication can be at the national or international level. Dissemination to both tourism-related and non-tourism related audiences is encouraged.
5. Reporting
The organisers of the activity will submit a short, standardised report confirming implementation of the criteria and summarising commitments planned to be implemented and dissemination undertaken. Modalities will be specified separately.

2.2. Optional Criteria

In addition to the mandatory criteria set out above, capacity-building activities supporting the International Year shall integrate **at least two of the following optional criteria**. These criteria are intended to reinforce practical application, cross-sector coordination and sustained impact beyond the duration of the activity. They allow flexibility in design while ensuring that activities contribute meaningfully to implementation and legacy.

1. Application to a real-world challenge

The activity will apply learning to a concrete national or local policy, planning or operational challenge, informed where possible by existing data, assessments or evidence within the participants' context.

Example:

- Applying resilience principles to an existing coastal tourism strategy.
- Reviewing how an existing destination management plan aligns with SDG 12.

2. Cross-sector engagement

The activity will include structured interaction with actors beyond the tourism administration (e.g. environment, culture, finance, local government, community representatives) to strengthen coordination and shared ownership.

3. Barrier identification and problem-solving

Participants will analyse existing tourism or tourism-related policies to identify at least one key institutional, regulatory or behavioural barrier to effective implementation and discuss practical, actionable approaches to address this barrier within their sphere of influence.

Example:

- Identify regulatory bottlenecks.
- Recognize gaps in institutional coordination.
- Identify budgetary or data constraints.

4. Development of a practical output

Participants will develop a short practical proposal, action outline, implementation roadmap or similar deliverable during the activity, designed to facilitate subsequent institutional uptake or policy integration. It can, but does not necessarily, be linked to (3) above.

Example outputs:

- A monitoring checklist.
- A policy recommendation brief.
- A stakeholder engagement plan.

5. Follow-up mechanism

The activity will include a follow-up exchange, reflection session or progress check within a defined period (e.g. 3–6 months) to support continued application of learning.

6. Inclusion and accessibility lens

Participants will assess how proposed actions contribute to improved inclusion, shared benefits and accessibility within tourism systems, including, where relevant, the participation of women, youth, local communities, indigenous peoples or small and medium-sized enterprises and other local value-chain actors; the more equitable distribution of economic and social benefits; and improved physical, digital or informational accessibility for persons with disabilities and other specific needs.

7. Assessment of trade-offs

Participants will assess potential trade-offs and possible adverse effects associated with proposed actions and discuss mitigation or adjustment approaches to strengthen long-term sustainability and resilience.

3. Recognition and Reporting

Capacity-building activities that wish to be presented as supporting the International Year must receive prior authorization from the relevant National Committee.

If no National Committee exists, authorization shall be provided by the competent national tourism authority, or as appropriate, in line with national institutional arrangements.

In exceptional cases where neither mechanism is available, authorization may be granted by the UN Tourism Secretariat in consultation with the Member State concerned.

Capacity-building activities supporting the International Year must comply with all mandatory criteria and integrate at least two optional criteria outlined in this document.

Organisers of activities supporting the International Year shall submit a brief, standardised report to the authorizing body, confirming implementation of the applicable criteria and summarising key outcomes, participants' commitments, and dissemination efforts.

The authorising body shall ensure that the information in these reports is transmitted to, or made accessible by, the UN Tourism Secretariat for global aggregation, knowledge-sharing and visibility of activities supporting the International Year.

Aggregated information may be used to showcase good practices and to assess the overall legacy of the International Year. Specific reporting procedures, including formats and mechanisms to facilitate global visibility, will be provided separately in the communications guidance for the International Year.

Capacity-building activities implemented in cooperation with international organizations, development partners or other external entities, including those financed or co-financed by such partners, may also be presented as supporting the International Year, provided that they comply with the criteria in this document and are authorized according to the procedures above.

The involvement of external partners does not change the requirements established in this document. Reporting obligations remain applicable irrespective of the source of financing.

V. Knowledge Base: Research and Flagship Reports

Knowledge Base: Research and Flagship Reports

International Year of Sustainable and Resilient Tourism 2027 (IYSRT 2027)

This document provides complementary guidance on the purpose, scope and criteria governing development of a knowledge base, through research, reports and publications, undertaken in the context of the International Year of Sustainable and Resilient Tourism 2027 (IYSRT 2027). It should be read in conjunction with the overall framework and guidance documents for the International Year, including the Guidance Note on National Committees and other thematic and operational guidance issued by UN Tourism.

For the purposes of the present document, the International Year of Sustainable and Resilient Tourism 2027 is hereinafter referred to as “the International Year”.

1. Strategic Orientation and Specific Objectives for Building a Knowledge Base

Sustainability is not a static objective but a continuous process requiring ongoing research and building of knowledge to guide tourism policy, planning and development formulation and implementation. Resilience has become an essential dimension of this process, ensuring that the tourism sector is not only of withstanding shocks but also of advancing its development responsibly and in alignment with broader societal, economic and environmental objectives.

The International Year is conceived as a forward-looking, implementation-oriented initiative to consolidate progress in advancing sustainable and resilient tourism, while responding to evolving global challenges affecting destinations and communities, including environmental degradation, economic volatility and social inequalities. It aims to translate policy commitments into coordinated, measurable action at the national, regional and global levels, with a focus on effective implementation and tangible impact. In doing so, it contributes to ongoing international deliberations on sustainable development beyond the current global framework, including the transition from the 2030 Agenda for Sustainable Development to future global frameworks.

Strategic Orientation

The International Year prioritizes the development of a comprehensive Knowledge Base to support the translation of sustainability and resilience principles into practical, implementable policies. This strategic orientation aims to strength skills and capacities across the tourism sector, raise awareness of tourism as an engine for sustainable, inclusive and resilient development and highlight its transformative role in the post 2030 global dialogue.

Specific objectives

The Knowledge Base on Sustainable and Resilient Tourism aims to:

- **Inform evidence-based decision-making** to promote sustainable tourism planning and development;
- **Enhance natural and cultural resources** through environmental protection, biodiversity conservation, resource efficiency, climate action, promotion of cultural values, diversity, living heritage and destination identity;
- **Support measurement and monitoring** of tourism-related data and impacts to strengthen governance, standards, and risk management;
- **Enhance local value creation and community well-being**, promoting inclusiveness and gender equality; and
- **Encourage innovation and competitiveness**, across the tourism sector.

2. Core Flagship Reports to be Prepared by UN Tourism

To ensure a strong analytical foundation for the International Year and to position tourism effectively within the emerging post-2030 global development framework, the Secretariat will prepare three mutually reinforcing knowledge products: two flagship reports and one rolling analytical report that spans the entire preparatory and implementation periods.

2.1 Future of Work in Tourism for the post 2030 agenda

The first flagship report will examine how the profound structural shifts under way in labour markets, technology and social systems are likely to shape employment and human capital in the tourism sector beyond 2030. It will analyse the transformation of skills and the growing need for lifelong learning, as well as the sector's capacity to promote inclusion and provide access to decent work. Particular attention will be given to the implications of the digital transition and artificial intelligence for tourism labour markets, alongside evolving patterns of labour mobility and migration that increasingly influence workforce availability across regions. The report will also explore the emerging relevance of the care economy and the need for more gender-sensitive approaches to workforce development, recognising the specific characteristics of tourism as a service-intensive, people-centred sector.

2.2 Resilient Tourism Development and its contribution to Poverty Alleviation, Urban Prosperity and Biodiversity Protection

The second flagship report will explore how tourism can serve as a catalyst for resilience-oriented development at both national and subnational level, with particular emphasis on its potential contributions to poverty alleviation, inclusive urban development and biodiversity conservation. It will assess the specific conditions under which tourism SMEs can strengthen their resilience and how coherent national and local frameworks can support more robust tourism development pathways. The report will also analyse the ways in which tourism can effectively contribute to poverty reduction, especially in regions where the sector represents a major source of livelihoods.

In addition, it will examine the role of tourism in urban environments, where the sector can drive more inclusive and resilient forms of growth, and will consider how biodiversity protection and nature-positive approaches can be systematically integrated into tourism planning and investment. Special attention will be given to the evolving role of private sector commitments, particularly net-positive strategies, in shaping more sustainable and resilient tourism ecosystems.

2.3 Rolling Analytical Report: Strategic Roadmap – Tourism in the Agenda 2030+

The Rolling Analytical report will serve as a continuous knowledge instrument, collecting insights, evidence and inputs generated throughout 2026 and 2027, and culminating in a strategic position paper to guide the tourism sector in negotiations on the post-2030 global agenda.

The primary aim of this report is to clarify how tourism can be most effectively positioned within the post 2030 agenda. Work on the report will progress in phases:

- **2026:** focus on establishing conceptual foundations, identifying key themes and gathering initial evidence.
- **2027:** incorporate findings from the International Year, across all regions and workstreams, will be continuously incorporated, enabling a progressive consolidation of ideas and building a broad consensus on the sector's long-term positioning.

The strategic roadmap is intended to be finalized in 2028, ensuring it can meaningfully inform Member States' engagement in Agenda 2030+ negotiations. However, earlier completion may be required should UNDESA's consultation calendar advance more rapidly.

3. Other Research and Publications Developed in Support of the International Year

In addition to the core knowledge products prepared by UN Tourism, research and publications developed by external entities are encouraged to support the objectives and thematic priorities of the International Year. These contributions may be produced by National Committees, academic institutions, research bodies, strategic partners, other partner organizations and relevant stakeholders. They may take the form of policy papers, technical notes, thematic studies, background papers, case-study compilations and other analytical materials relevant to sustainable and resilient tourism. The development, preparation and delivery of such publications shall be financed entirely through independent resources. UN Tourism will not be able to provide financial support for activities related to their preparation, including research, drafting, consultations or associated operational costs.

Research and publications developed in support of the International Year should demonstrate clear relevance to its objectives, thematic priorities and guiding principles. They should be evidence-based, prepared with appropriate analytical rigor and methodological transparency, and clearly identify the responsible author or institution, date of publication and thematic or geographical scope. Publications that are primarily promotional, commercial or advocacy-driven in a manner inconsistent with the public-interest purpose of the International Year should not be presented in association with it.

All publications should include a visible Statement of Responsibility, Originality and Methodological Integrity from the authoring institution or author. This statement should confirm that responsibility for the content, sources, analysis, findings and conclusions rests fully with the named authoring entity; that the publication meets the applicable criteria set out in this guidance; and that the views expressed do not necessarily reflect those of UN Tourism. A model Statement is included as Annex I.

Where artificial intelligence-assisted tools have been used in the preparation of a publication, such use should be disclosed in the statement in a clear and transparent manner. The statement should also confirm that AI tools have not replaced substantive human responsibility for the research, analysis and conclusions and have not been used to fabricate or misrepresent data, references, quotations or findings.

In selected cases, research and publications developed in support of the International Year may also be prepared jointly by UN Tourism and strategic partners. Such collaboration may be considered where it offers clear substantive value for the objectives and thematic priorities of the International Year and be governed by appropriate arrangements defining roles, responsibilities, editorial processes, visibility and accountability. These collaborations must remain fully consistent with the public-interest character of the International Year and shall not confer governance functions, decision-making authority or influence over the substantive independence of UN Tourism. The development, preparation, and delivery of such reports may be financed through the International Year project account, managed by UN Tourism, subject to availability of funds and approval of the Steering Committee. Specific agreements are required for the funding and preparation of joint publications.

For publications primarily addressing national or subnational issues, the relevant National Committee may, under its own responsibility, associate them with the International Year as part of the national implementation framework. Such association should reflect the Committee's judgement that the publication is relevant to the International Year's objectives and thematic priorities within the respective national context. Annex II includes a model Statement of Relevance by a National Committee, which can be used with that purpose.

All external publications developed in support of the International Year shall remain under the full responsibility of the respective authoring institution or author. Association with the International Year does not in itself imply review, validation or formal endorsement by UN Tourism.

4. Knowledge Repository on the International Year Webpage

The Knowledge Repository on the International Year webpage will serve as a curated, non-exhaustive access point for selected knowledge products relevant to the objectives and thematic priorities of the

International Year. It will include the core knowledge products prepared by UN Tourism and may also feature selected external publications developed in support of the International Year.

Inclusion of external publications in the repository is not automatic. As a general rule, only external publications accompanied by a Statement of Relevance issued by the relevant National Committee or, where appropriate, by one or more relevant National Committees, will be considered for inclusion. Such statement should confirm that the publication is relevant to the objectives and thematic priorities of the International Year, either within the respective national context or, where applicable, across the national contexts represented by the issuing Committees.

All publications considered for inclusion in the repository must also contain, in a visible manner within the publication itself, the required Statement of Responsibility, Originality and Methodological Integrity. Publications must be made publicly available in final digital form free of charge and comply with formal requirements relating to accessibility, completeness, presentation and metadata.

The repository may also include publications prepared jointly by UN Tourism and strategic partners, where such publications are developed in accordance with the applicable agreements, governing roles, responsibilities, visibility and editorial integrity.

Inclusion in the Knowledge Repository does not constitute substantive review, validation or formal endorsement by UN Tourism of publications produced by external entities. Responsibility for the content of such publications remains entirely with the respective authoring institution or author.

Annex I

Model Statement of Responsibility, Originality and Methodological Integrity

The authoring institution or author (hereinafter referred to as the “Author”) hereby declares and warrants that:

4. the publication is not promotional, commercial or advocacy-driven in a manner inconsistent with the public-interest character of the International Year;
5. the publication is made publicly available in final digital form free of charge;
6. where artificial intelligence-assisted tools have been used in the preparation of the publication, such use has been disclosed in a clear, appropriate, and transparent manner, and has not replaced substantive human responsibility for the research, analysis or conclusions;
7. artificial intelligence-assisted tools, where used, have not been employed to fabricate, falsify, or otherwise misrepresent data, references, quotations, analysis or findings; and
8. the views and opinions expressed in the publication are solely those of the Author and do not necessarily reflect the views of UN Tourism.

VI. Guidelines on Partnerships and Support

Guidelines on Partnerships and Support for the International Year of Sustainable and Resilient Tourism 2027 (IYSRT 2027)

The International Year of Sustainable and Resilient Tourism 2027 (IYSRT2027) (hereinafter referred to as “International Year”) provides a global platform to advance tourism as a driver of sustainable development and resilience. Mandated by the United Nations General Assembly and facilitated by UN Tourism, the International Year aims to mobilize governments, the United Nations system, international and regional organizations, the private sector, academia and civil society around a shared agenda to strengthen tourism’s contribution to inclusive growth, environmental stewardship and social cohesion.

In accordance with United Nations principles governing international years, activities undertaken within the framework of the International Year are supported through contributions intended to complement the normative, convening and technical role of UN Tourism, while fully safeguarding the Organization’s independence, integrity and public-interest mandate.

The present Guidelines establish a clear and transparent framework governing partnerships and support to the International Year. They are designed to ensure that all forms of engagement contribute meaningfully to the objectives of the International Year and are aligned with United Nations values, standards and oversight requirements.

For the purposes of the present Guidelines, the term “support” refers to all forms of contributions to the International Year, including financial contributions, in-kind contributions, event-based support and other forms of engagement consistent with the objectives of the International Year.

The term “partners” refers to donor engagement based on financial, and a limited number of in-kind, contributions accepted by UN Tourism in support of the International Year as specified in this document.

The term “friends” refers to donor engagement based on a specific financial contribution value as outlined in this document.

All support, including through partners and friends, are designed as instruments to strengthen implementation and coherence across workstreams, supporting integrated approaches that link the economic, social, environmental and cultural dimensions of tourism development.

1. Support of the Thematic Priorities and Expected Outcomes

The International Year is organized around a defined set of thematic priorities and expected outcomes, as set out in its overall framework and thematic guidance documents. These provide substantive reference for the design and implementation of activities at global, regional and national levels.

Support mobilized in the context of the International Year is intended to contribute directly to the achievement of these priorities and outcomes.

Support will primarily take the form of financial contributions, although in-kind contributions through technical or knowledge inputs, or collaboration on specific activities, including events, analytical work, publications, capacity-building initiatives and outreach efforts, may be provided in certain circumstances, subject to the specific needs of the Organization in the activities related to the International Year and to its alignment with the objectives and safeguards of the International Year.

All support is expected to reinforce institutional and stakeholder capacities and generate results that extend beyond individual activities, contributing to the lasting legacy of the International Year.

2. Scope and Relationship to Other Guidance

These Guidelines provide complementary guidance on the mobilization of voluntary support for activities undertaken in the context of the International Year.

They should be read in conjunction with the overall framework and guidance documents for the International Year, including those defining its objectives, thematic priorities, governance arrangements and implementation modalities. Taken together, these instruments provide a coherent basis for the planning, coordination and delivery of activities at all levels.

The present Guidelines focus specifically on the principles, modalities and conditions governing support. They do not replace or supersede existing UN Tourism rules, policies or procedures, nor do they confer governance roles, decision-making authority or preferential status on partners or supporters. All engagement remains subject to the applicable regulatory, ethical and oversight frameworks of UN Tourism.

3. Principles Governing Support

Support for the International Year shall be guided by the purposes and principles of the United Nations and the mandate, rules and policies of UN Tourism. All forms of engagement must respect the Organization's independence, integrity and neutrality and contribute to the objectives of the International Year in a manner consistent with its public-interest mandate.

Engagement shall be based on transparency, accountability and mutual respect. Support from either Partners or Friends shall not create any form of influence over the strategic direction, substantive content or decision-making processes of UN Tourism or the governance arrangements established for the International Year. Support, whether financial or in-kind, shall not result in preferential treatment, competitive advantage or endorsement of partners, products or services.

Support to the International Year shall be aligned with the thematic priorities, expected outcomes and implementation framework of the International Year and shall be designed to strengthen delivery, enhance coherence across activities and reinforce capacity at global, regional and national levels, without undermining existing initiatives.

UN Tourism shall apply due diligence in the selection and management of Partners and Friends to ensure consistency with United Nations values and standards, including ethical conduct, respect for human rights, environmental responsibility and the avoidance of conflicts of interest. Support involving reputational, ethical or operational risks shall not be pursued.

All support arrangements shall be established, implemented and monitored in accordance with applicable UN Tourism procedures, including financial regulations, audit requirements and oversight mechanisms.

All contributions shall be administered in accordance with the financial, regulations, rules and policies of UN Tourism; and be subject exclusively to the internal and external auditing procedures provided in the financial regulations, rules, policies and procedures of UN Tourism.

4. Eligibility Criteria

Support to the International Year may be provided by Governments, entities of the United Nations system, international and regional organizations, financial institutions, private sector entities, civil society organizations, academic institutions, and foundations, in line with the present Guidelines and the applicable rules and policies of UN Tourism.

Eligibility for support is assessed on the basis of alignment with the objectives, thematic priorities and implementation framework of the International Year, as well as consistency with United Nations values and standards.

To ensure coherence, transparency and integrity, UN Tourism may review proposed support arrangements and determine, where appropriate, the most suitable form of engagement. UN Tourism retains the discretion to decline or discontinue engagement where this is necessary to safeguard the mandate, principles or interests of the Organization or of the International Year.

Potential conflicts of interest shall be disclosed and addressed in consultation with UN Tourism. Support arrangements may be discontinued where eligibility conditions are no longer met or where continued

engagement would no longer be consistent with the principles, objectives or reputation of the Organization or of the International Year.

5. Modalities of Support

Support to the International Year may be provided through a range of complementary modalities, reflecting the diversity of partners and the nature of activities undertaken at different levels.

Support may be provided through the following modalities:

Financial contributions³:

1. **Financial contributions**, provided on a voluntary basis to support the overall implementation of the International Year. Every entity wishing to support the International Year of Sustainable and Resilient Tourism 2027 with a financial contribution must adhere to the standard and non-negotiable Terms and Conditions of Partnership through a Letter of Support addressed to the Secretary General of UN Tourism. A general project account shall be created for this purpose.
2. **Collaborative support arrangements**, UN Tourism recognizes that some donors may wish to direct their contribution towards a specific area of work, while remaining aligned with the overall objectives of the International Year. These can include activities in areas such as research, analytical work, publications, capacity-building, events, communication or outreach, where roles and responsibilities are clearly defined and formalized through appropriate instruments including UN Tourism existing framework agreements and the standard and non-negotiable Terms and Conditions of Partnership through a Letter of Support addressed to the Secretary General of UN Tourism. Project accounts specific to each activity shall be created for this purpose.

In-kind contributions

3. **In-kind contributions**, may be accepted only as a complement to financial contributions and shall not, on their own, constitute a basis for partnership or participation. Such contributions may include technical expertise, knowledge inputs or logistical support that contribute to the delivery of activities under the International Year. Such contributions require the signing of a bilateral agreement defining the applicable legal framework, in accordance with the Organization's standard practice. In-kind contributions will be valued at their fair value at the date of the formalization. In the case of goods contributed in kind, these will either be returned to the provider or be transferred to UN Tourism upon completion of the relevant activity;
4. **Event-based support**, may include the hosting or co-hosting of meetings, conferences or other official activities of the International Year, in line with the agreed programme and applicable UN Tourism procedures. The roles and responsibilities of the parties will be clearly defined and formalized through appropriate instruments including UN Tourism framework agreements for this purpose.

The specific form, scope and conditions of support shall be determined on a case-by-case basis, taking into account the nature of the proposed contribution, its relevance to the thematic priorities and expected outcomes of the International Year, and its consistency with the applicable rules, policies and procedures of UN Tourism.

Detailed arrangements governing support, including financial, operational, recognition and reporting aspects, shall be formalized through the appropriate mechanisms indicated above and designed by UN Tourism for this purpose.

³ A Project Support Cost rate of at least 7% shall be applied to the financial contribution.

6. Financial Management and Reporting

Contributions received in support of the International Year shall be managed in accordance with the financial regulations, rules and procedures of UN Tourism and shall be subject exclusively to the internal and external auditing procedures provided in the financial regulations and rules, policies and procedures of UN Tourism.

The allocation and use of such resources shall be guided by the approved Road Map and thematic priorities of the International Year, as endorsed by the governing bodies.

7. Recognition of Support

Support provided to the International Year will be formally recognized by UN Tourism in a manner commensurate to the nature, scope, and level of the contribution and consistent with the public-interest character of the International Year and the principles set out in the present Guidelines.

Recognition will be applied in a structured and transparent manner to ensure consistency, proportionality and coherence across different forms of support. The form and level of recognition will be determined by UN Tourism on a case-by-case basis, based on the type, scale, duration, and relevance of the contribution to the objectives and expected outcomes of the International Year.

Recognition of support may, as appropriate, be reflected in official communications, publications, events and digital platforms related to the International Year. Such recognition shall not confer any entitlement, endorsement or preferential treatment, nor imply any form of commercial association with the International Year or with UN Tourism.

Financial contributions may be subject to structured recognition arrangements, including indicative engagement levels and contribution ranges, as set out in Annex I for guidance purposes only. Recognition of in-kind or event-based support shall be determined separately by UN Tourism, taking into account the nature and strategic relevance of the contribution.

The name, emblem and visual identity of the International Year, as well as the name, acronym and emblem of UN Tourism and of the United Nations, may be used only with the prior written authorization of UN Tourism and in accordance with the applicable guidelines. Such use shall not imply endorsement of any partner, supporter, product or service, nor shall it be used for commercial, promotional or fundraising purposes unrelated to the objectives of the International Year.

Recognition arrangements shall be defined in the relevant support or partnership instrument and may be reviewed, adjusted or discontinued by UN Tourism where this is necessary to ensure continued consistency with the present Guidelines and with United Nations values and standards.

8. Implementation

Support arrangements under the International Year shall be coordinated by UN Tourism in accordance with its mandate and applicable internal rules, policies and procedures.

All support arrangements shall be formalized through appropriate instruments, such as letters of support adhering to the standard terms and conditions or agreements, which shall define, as applicable, the scope and duration of engagement, roles and responsibilities, recognition arrangements, reporting requirements and any review or termination provisions.

UN Tourism shall ensure appropriate internal coordination, oversight and monitoring of the support provided to the International Year, with a view to ensuring consistency with the objectives, thematic priorities and expected outcomes of the International Year. Where appropriate, information on support to the International Year may be reflected in reporting to the relevant governing bodies, in line with established practices.

The present Guidelines may be reviewed and updated, as necessary, to reflect evolving implementation needs, lessons learned and guidance from the governing bodies of UN Tourism.

Annex I

Indicative Contribution Ranges and Engagement Options

The indicative contribution tiers set out in this Annex provide a reference for recognizing the overall level of contribution and engagement in support of the International Year. They may reflect financial contributions and, where appropriate, significant in-kind or combined forms of support.

The tiers are intended to support transparency, consistency and internal coherence in the organization and recognition of voluntary support to the International Year.

1. Indicative Financial Contribution Ranges⁴

Financial contributions to the International Year are structured along a graduated set of indicative engagement tiers, reflecting the scale and level of support provided. These tiers are used solely for recognition and communication purposes.

They are open to governments, entities of the United Nations system, international and regional organizations, private sector entities, civil society organizations, foundations and other eligible partners.

Financial contributions accepted by UN Tourism under the tiers set out below confer partnership status for the purposes of the present Guidelines. In-kind contributions may be recognized towards Tiers I, II and III only, and shall not exceed 50 per cent of the total value of the contribution (financial and in-kind) – that is, in order to confer partnership status where there is an in-kind contribution, at least 50% of the total contribution shall be financial. All such contributions are subjected to case-by-case assessment and determination by UN Tourism.

Exceptions, determined on a case-by-case basis, by UN Tourism may arise where in-kind contributions, on their own and without a complementary financial contribution, may also be recognized for partnership status where they directly support the implementation of the International Year through the hosting of official flagship events, the preparation of jointly developed flagship publications or research, or other strategic contributions expressly accepted by UN Tourism for this purpose. These exceptions shall also be formalized through the appropriate instrument.

Indicative contribution tiers:
